

# **Art**

## Key Stage 1

### Term 1 and 2      Colour

Our students will explore colour by looking at the 3 primaries and the 3 secondary's.

They will look at how and why colour is all around us and be encouraged to use, understand and know the key words when making reference to these everyday factors.

### Term 3 and 4      Three- Dimensions

Our students will explore 3-dimensions by looking at how our everyday world has substance, shape and takes up space. That everyday objects add to the world we live in, from the utensils and containers we use, to the buildings we live in and the world we live on.

### Term 5 and 6      Art Appreciation

Our students will use the previous terms work as a foundation to looking at two closely linked movements in art, Art Nouveau and Art Deco.

They will explore aspects of these styles, by looking at how they developed and what primarily was used for inspiration. This will include work outside and a visit to an art gallery.
