

Ratcliffe and Oaklands PE and Sport Premium

Ratcliffe/Oaklands Primary School Sport Funding 2017/18

The Olympic and Paralympic Games have given us a springboard in supporting the delivery of outstanding Physical Education in all our schools. The government has decided to specifically focus on our primary age pupils as they will be the ones to carry this legacy into the future and as a result it has been agreed that extra sports funding be given for pupils in the primary age range. It is intended that the funding has a direct impact on pupils lifestyles and physical wellbeing as well as developing PE and school sport.

It has been suggested that school sport funding could be spent on

- increasing participation rates by offering more clubs/sports activities
- increasing opportunities for competition in school sport
- evaluating how inclusive the PE curriculum is at school
- stimulating growth in a range of activities
- improvement in partnership work/links with the community
- promoting greater awareness amongst pupils about the dangers of obesity, smoking and other activities that could undermine pupils health.
- promoting positive attitudes to mental health and building mental resilience through sport and healthy activities.

Here at Ratcliffe/Oaklands we now need to make decisions about how to best spend this funding over the next few years and how to monitor its impact in order to maintain effectiveness.

We also acknowledge that due to the nature of our school and the pupils specific needs the impact of this funding will have an affect on all our pupils including those in KS3 and KS4.
